Two (small) issues with display of tensor
https://github.com//mratsim/Arraymancer/issues/500
Example 3 (XOR) / mean_square_error_loss issue
https://github.com//mratsim/Arraymancer/issues/495
QR decomposition test, sign issue
https://github.com//mratsim/Arraymancer/issues/494
Generalized inverse of a tensor is missing
https://github.com//mratsim/Arraymancer/issues/493
Export cumsum procedure and expand to work on n-dim Tensors
https://github.com//mratsim/Arraymancer/issues/491
Future direction for memory management?
https://github.com//mratsim/Arraymancer/issues/489
Better organise documentation
https://github.com//mratsim/Arraymancer/issues/488
Return var results when indexing
https://github.com//mratsim/Arraymancer/issues/487
The module lacks a 'where' procedure.
https://github.com//mratsim/Arraymancer/issues/486
OpenMP barrier slowness in neural network examples with high core count.
https://github.com//mratsim/Arraymancer/issues/485
